

**B. Public services.**

1. The proposed use is in conformance with the street designations of the Transportation Element of the Comprehensive Plan;
2. Transportation system:
  - a. The transportation system is capable of supporting the proposed use in addition to the existing uses in the area. Evaluation factors include safety, street capacity, level of service, connectivity, transit availability, availability of pedestrian and bicycle networks, on-street parking impacts, access restrictions, neighborhood impacts, impacts on pedestrian, bicycle, and transit circulation. Evaluation factors may be balanced; a finding of failure in one or more factors may be acceptable if the failure is not a result of the proposed development, and any additional impacts on the system from the proposed development are mitigated;
  - b. Measures proportional to the impacts of the proposed use are proposed to mitigate on- and off-site transportation impacts. Measures may include transportation improvements to on-site circulation, public street dedication and improvement, private street improvements, intersection improvements, signal or other traffic management improvements, additional transportation and parking demand management actions, street crossing improvements, improvements to the local pedestrian and bicycle networks, and transit improvements;
  - c. Transportation improvements adjacent to the development and in the vicinity needed to support the development are available or will be made available when the development is complete or, if the development is phased, will be available as each phase of the development is completed;
3. Public services for water supply, police and fire protection are capable of serving the proposed use, and proposed sanitary waste disposal and stormwater disposal systems are acceptable to the Bureau of Environmental Services.

**C. Livability.** The proposal will not have significant adverse impacts on the livability of nearby residential-zoned lands due to:

1. Noise, glare from lights, late-night operations, odors, and litter; and
2. Privacy and safety issues.

**D. Area plans.** The proposal is consistent with any area plans adopted by the City Council as part of the Comprehensive Plan, such as neighborhood or community plans.

**33.815.105 Institutional and Other Uses in Residential and Campus Institutional Zones**

These approval criteria apply to all conditional uses in R and campus institutional zones except those specifically listed in sections below. The approval criteria allow institutions and other non-Household Living uses in residential and campus institutional zones that maintain or do not significantly conflict with the appearance and function of residential or campus areas. Criteria A through E apply to institutions and other non-Household Living uses in residential zones. Criteria B through E apply to all other conditional uses in campus institutional zones. The approval criteria are:

- A. Proportion of Household Living uses.** The overall residential appearance and function of the area will not be significantly lessened due to the increased proportion of uses not in the Household Living category in the residential area. Consideration includes the proposal by itself and in combination with other uses in the area not in the Household Living category and is specifically based on:
1. The number, size, and location of other uses not in the Household Living category in the residential area; and
  2. The intensity and scale of the proposed use and of existing Household Living uses and other uses.
- B. Physical compatibility.**
1. The proposal will preserve any City-designated scenic resources; and
  2. The proposal will be compatible with adjacent residential developments based on characteristics such as the site size, building scale and style, setbacks, tree preservation, and landscaping; or
  3. The proposal will mitigate differences in appearance or scale through such means as setbacks, screening, landscaping, tree preservation, and other design features.
- C. Livability.** The proposal will not have significant adverse impacts on the livability of nearby residential zoned lands due to:
1. Noise, glare from lights, late-night operations, odors, and litter; and
  2. Privacy and safety issues.
- D. Public services.**
1. The proposal is supportive of the street designations of the Transportation Element of the Comprehensive Plan;
  2. Transportation system:
    - a. The transportation system is capable of supporting the proposed use in addition to the existing uses in the area. Evaluation factors include safety, street capacity, level of service, connectivity, transit availability, availability of pedestrian and bicycle networks, on-street parking impacts, access restrictions, neighborhood impacts, impacts on pedestrian, bicycle, and transit circulation. Evaluation factors may be balanced; a finding of failure in one or more factors may be acceptable if the failure is not a result of the proposed development, and any additional impacts on the system from the proposed development are mitigated;
    - b. Measures proportional to the impacts of the proposed use are proposed to mitigate on- and off-site transportation impacts. Measures may include transportation improvements to on-site circulation, public street dedication and improvement, private street improvements, intersection improvements, signal or other traffic management improvements, additional transportation and parking demand management actions, street crossing improvements,

improvements to the local pedestrian and bicycle networks, and transit improvements;

- c. Transportation improvements adjacent to the development and in the vicinity needed to support the development are available or will be made available when the development is complete or, if the development is phased, will be available as each phase of the development is completed;

3. Public services for water supply, police and fire protection are capable of serving the proposed use, and proposed sanitary waste disposal and stormwater disposal systems are acceptable to the Bureau of Environmental Services.

- E. **Area plans.** The proposal is consistent with any area plans adopted by the City Council as part of the Comprehensive Plan, such as neighborhood or community plans.

### **33.815.107 Short Term Housing and Mass Shelters in R and IR Zones**

These approval criteria apply to Community Service uses that provide short term housing and mass shelters in R and IR zones. Approval criterion A and C must be met for all mass shelters and short term housing. Criterion A through E must be met for mass shelters and short term housing where the net building area on the site is increasing by more than 1500 square feet or 10 percent, whichever is greater. The approval criteria are as follows:

- A. **Proportion of Household Living uses.** The overall residential appearance and function of the area will not be significantly lessened due to the increased proportion of uses not in the Household Living category in the residential area. Consideration includes the proposal by itself and in combination with other uses in the area not in the Household Living category and is specifically based on:

1. The number, size, and location of other uses not in the Household Living category in the residential area; and
2. The intensity and scale of the proposed use and of existing Household Living uses and other uses.

- B. **Physical compatibility.**

1. The proposal will preserve any City-designated scenic resources; and
2. The proposal will be compatible with adjacent residential developments based on characteristics such as the site size, building scale and style, setbacks, tree preservation, and landscaping; or
3. The proposal will mitigate differences in appearance or scale through such means as setbacks, screening, landscaping, tree preservation, and other design features.

- C. **Livability.** The proposal will not have significant adverse impacts on the livability of nearby residential zoned lands due to:

1. Noise, glare from lights, late-night operations, odors, and litter; and
2. Privacy issues.
